[illegible]

There are two principal types of surface water rights in California, riparian and appropriative rights.

An appropriative right is required for use of water on nonriparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914 new appropriators have been required to obtain a permit and license from the State.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available, including the following:

GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the source of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or to divert water which originates in a different watershed, or return flows from use of groundwater.

An appropriative right is required for use of water on nonriparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914 new appropriators have been required to obtain a permit and license from the State.

Statements of Water Diversion and Use must be filed by riparian and pre-1914 appropriative water users. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversion, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include:

- "Statements of Water Diversion and Use"
- "Information Pertaining to Water Rights in California"
- "Water Rights for Stockponds Constructed Prior to 1969"
- "Appropriation of Water in California"

SAMPLE

Statement of Water Diversion and Use

- A. Name of person diverting water Brown Water System (a public utility authorized by PUC.)
Address 7 E.E. ERICH, P.O. Box 66, French Gulch, Calif. 96033
- B. Name of body of water at point of diversion French Gulch Creek
Tributary to Clean Creek
- C. Place of diversion 1/4 NW 1/4 Section 22, Township 33N, Range 7W, B2M, Shasta
County, or locate it on sketch of section grid on reverse side with regard to section lines or prominent local landmarks.
- D. Capacity of diversion works is Approx 1 cfs/Sec cubic feet per second
Capacity of storage reservoir Approx 10,000 gallons per minute
State quantity of water used each month in gallons or acre-feet gallons

Year	Jan.	Feb.	Mar.	Apr.	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.	Total Annual
1966	<u>continuous flow March through November</u>												

If monthly and annual use are not known, check months in which water was used. State extent of use in units, such as acres of each crop irrigated, average number of persons served, number of stock watered, etc. Irrigation use by 12 users - Irrigation of lawns and gardens

Maximum annual water use in recent years has been Approx 1 cfs/Sec continuous flow gallons Unused water returned to Clean Creek
Minimum annual water use in recent years has been Approx 1 cfs/Sec continuous flow gallons
Type of diversion facility: gravity X, pump _____
Method of measurement: weir _____, flume _____, electric power meter _____, water meter _____, estimate X

E. Purpose of use (what water is being used for) Irrigation by 12 users for lawns & gardens in South portion of Town of French Gulch located under pressure

F. General description or location of place of use (use sketch of section grid on reverse side if you desire) Town of French Gulch

G. Year of first use as nearly as known Prior to 1874 and in continuous use to date.

H. Name of person filing statement E.E. ERICH
Position Owner DBA Organization Brown Water System
Address P.O. Box 66, French Gulch, Calif.

I certify that the foregoing statements are true and correct to the best of my knowledge and belief.
